

Summer Training Programme

NCCS does not admit students directly for the summer Training Programme. However, candidates selected as Summer Research Fellows (SRF) by Indian Academy of Sciences (IAS), are admitted for 2 months training. Students who are interested in Summer Training at NCCS may apply directly to Indian Academy of Sciences (IAS) SRF Program with preference indicated for NCCS.

Students are encouraged to apply for suitable programmes when our advertisement appears on the website. For further details on specific programmes, the student may mail their queries to academics@nccs.res.in
